## CAREER OBJECTIVE

---

A bright, confident and hardworking Computer Info Systems student with the aim of fulfilling my potential in my degree and pursuing a career in software engineering. I have proven both at University and through my work at Specsavers that I have relevant teamwork and people skills. I also have an understanding of the personal attributes and qualifications required of I.T professionals, and feel my achievements in my degree to date, coupled with my strong communication and problem-solving skills make me an excellent candidate as an enthusiastic employee.
